

Royal Belgian Amateur Radio Union

www.UBA.BE

Organize in June 2017 in the city of Mesen Belgium near Ypres an exposition.

About a forgotten Army : The people and material of (Tele-) radio communication in WW1 (coordinates 50° 46' North, 2° 54' East)

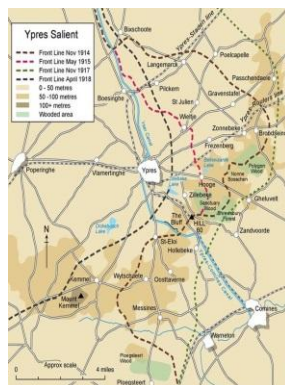

Authentically material will be shown in the city town hall on the development of (tele-) radio communication technologies and the evolution of the available communication. Live multiband radio HAM broadcasting will be done out from the centerplace of the city Mesen.

With proud we announce Major Dr. Tom Simoens who will speak about the communication in the Belgian Army in the afternoon seminar on June 3th.

The UBA joins hereby the 100 years Battle of the Mines remembrance and commemoration. Additional the UBA will release a car tour in the region whereby you can visit fallen and local buried soldiers related to the communication. Across all countries concerned. With proud we mentioned the historical support and sponsorship of Mister Francky Bostyn in this project.

Heuvelland and Mesen join forces to organize the most important World War I commemoration for their region during the centennial period. In addition to the ceremonies (where Comines-Warneton is involved) and this in cooperation with the concerning embassies, Flanders, the Province of West Flanders; there are also concerts and exhibitions scheduled.
